Foster Medal Awarded to Victor H. Reis

Current and former DOE Tri-Lab directors, colleagues, and contemporaries of Victor "Vic" Reis, the "architect" of the Stockpile Stewardship Program, gathered at the Laboratory on November 3, 2017, to honor him with the John S. Foster Jr. Medal. The award recognized Reis for his significant contributions to national security. His innovative leadership in science and technology and dedication to national service was particularly important for guiding the nation's nuclear program through an uncertain time of budget cuts and the end of underground testing. Reis is the third recipient of the Foster Medal.
